

Meritor Parts

Meritor Parts - Meritor is a leading international dealer which is proudly founded on a one hundred year custom of service and quality. They focus on different modules, integrated systems and components to original equipment manufacturers and the aftermarket for the transportation and industrial trades.

Meritor prides itself in the company's distinctive energy and believes that this particular energy contributes to their competitive advantage within the international operations. The company values all their clients and wishes to guarantee their success while anticipating their various requirements. Meritor starts with a tradition that values diversity of individuals and their broad thought processes. Operating in 19 nations and hiring over eleven thousand two hundred individuals, Meritor promotes innovation and collaboration amongst a team of knowledgeable professionals.

Meritor strongly believes in just hiring future focused individuals. These top-caliber individuals can rapidly get used to to changing environments and freely exhibit the level of performance and commitment needed to attain results for the competitive market environment. The company empowers their teams to make sound business decisions so as to improve the overall success of the company. In return, Meritor provides all their staff different opportunities for personal and professional growth.

The Advanced Engineering team is on the forefront of systems engineering and components. This comprises drivelines, axles, braking and suspension systems used for medium and heavy duty trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is developing. They started a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives which represent the whole Asia Pacific region. This particular team is also responsible for supporting the requirements of their global engineering workers.

Meritor's customer focused and dynamic Quality team is dedicated to ensuring optimum processing at their production plants and aftermarket distribution facilities that are situated around the globe in 19 nations and in 5 different continents.

The supplier development network is specially located in order to support new business development. Regional teams are supported by worldwide initiatives, quality systems and centralized specialties in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a fact-based, data-driven method to decision making within each and every aspect of the business. The DFSS or Design for Six Sigma ensures product reliability within each and every region. The team is also comprised of transactional Green Belts who make use of Six Sigma tools to business methods and apply lean techniques.
