

Advance-Nilfisk Parts

Advance-Nilfisk Parts - Think about how tedious it would actually be to clean up your house after throwing a big party, without help from cleaning machines. Before, when upholstery and carpets had the dust beat out of them manually; cleaning cloths, brushes and brooms were the best cleaning materials back then.

P.A. Fisker, the man who founded Nilfisk-Advance, was an electrical engineer who loved working with electrical motors. Starting the company in 1906, he started to produce motors so as to drive coffee grinders, drills, fans and machine tools. Mr. Fisker's dream from the start was to own a worldwide company selling goods globally.

The Nilfisk C1 was a revolutionary breakthrough in the cleaning trade. Mr. Fisker invented a incredible, ground breaking vacuum cleaner that can be operated by one individual as it just weighed 17.5 kilos! This creation came in a time where other cleaning equipment were huge and needed at least 4 operators, hence, the Nilfisk C1 transformed everything and developed the manner we clean forever. The genius behind these first cleaning machines remains unparalleled. Cleaning machines provide a brilliant solution to an ongoing dilemma; things get dirty and have to be cleaned frequently, without too much effort.

Gradually but progressively, Nilfisk-Advance expanded all through the decades. In the 1980s, this expansion truly happened the time the company became a part of the NKT Group. Their new owners' ambition and motivation made Nilfisk-Advance take a huge leap forward within the industry, aspiring to be amongst the leading global players in the market of professional cleaning equipment. Nilfisk-Advance is now found in every part of the globe by gradually acquiring many small businesses to be able to grow their product selection and presence in new markets. They are really proud to offer a variety of cleaning solutions to suit each and every need.
